Git	C	UNIX (Bash)	Python	RegEx

Education

B.S. Computer Science, Duke University, Class of 2019

Projects

Clouddit

- Web application visualizing popularity of words on media/discussion website Reddit built with Node.js, Vue.js, and D3 libraries. Allows users to interact with Reddit data to experience events, community tone, and content in a more meaningful way

LinguisticDB

- Full-stack project built with PostgreSQL, Node.js, and Vue.js. Analyzes linguistic properties of texts in Project Gutenberg's library, providing a new way to relate books and understand authors.

Mozilla Firefox Code Base Contributions

- Address bugs in Firefox browser open-source code, submit patches to Bugzilla for review and testing, eventual pushing of patches into Mozilla code base
